Below the emblem, the company name 'EMBUNAN KRISTAL RESOURCES' is written in a smaller, sans-serif font, with the tagline 'REINFORCED CONCRETE' and 'MANUFACTURER' underneath.

Scope of Work Client/Our Residences

Project Execution Subcontractors, Suppliers, Vendors Compliance

As a minimum, our procurement activity will comply with relevant Food Safety and Health and Safety standards, Codes of Practice, Company regulations, Malaysia Federal and States laws and standards and will reflect our ongoing commitment to sustainable food procurement and corporate responsibility ("CR"). Embunian Kristal Resources constantly strives to find the right balance between building long-term supply relationships based on the compatibility of values and behavior, as well as quality and price.

Suppliers are selected and retained through a non-discriminatory bidding and tendering process. Our positive selection of suppliers includes, where practicable, a review of the supplier's policy and activities in relation to good CR practices.

We expect our larger suppliers to meet a robust set of CR criteria and we encourage and assist the adoption of best practice amongst all suppliers and expect all of our suppliers to abide by the law and to recognize our Code of Ethics by acceptance and strict adherence to:

Code of Business Conduct - CBC
Non Disclosure Agreement - NDA
Supplier Information Sheet - SIS

Human Resources

As crucial part of our Corporate Responsibility Program and in case we will need to recruit migrant workers we adopt and adhere to ethical recruitment practices, including the use of reputable recruitment agencies. EKR adhere and practice the Dhaka Principles for Migration with Dignity which include:

- No fees are charged to migrant workers
- All migrant worker contracts are clear and transparent
- Policies and procedures are inclusive
- No migrant workers' passports or identity documents are retained
- Wages are paid, regularly, directly and on time
- The right to worker representation is respected
- Working conditions are safe and decent
- Living conditions are safe and decent
- Access to remedy is provided
- Freedom to change employment is respected, safe return guaranteed

Following our Code of Business Conduct and Ethics we adopt and practice

Develop a company policy designed to protect and respect workers' rights and freedom and ensure that the policy is implemented appropriately

Ensure that we are using ethical recruitment agencies for our employment needs by conducting research on the agencies your company uses

Follow up with workers at regular intervals after they have been hired to assess whether the company policy is being adhered to

Work with other industry partners to collectively implement reforms that make unethical recruitment agencies and employment standards unviable

Welfare and Recreation

Our goal is to reduce the potential for civil unrest & anti-social behavior by camp residents as Sports, Welfare & Recreation activities allow people to channel any feelings of built-up frustration or aggression through healthy, constructive & rewarding activities.

We aim to make each Clients resident's employment duration an unforgettable life experience, where they have the opportunity to sample a once-in-a-lifetime experience of diverse cultural exposure to other nationalities and the customs, traditions and events they celebrate. We also aim to have every resident return to their countries a more educated and enlightened individual.

The Benefits of Welfare

Sports & Recreation can serve as a healthy outlet from the daily routine of work thus alleviating boredom & stagnation, a great method for retaining staff & preventing a high staff turnover.

Regular exercise also brings about a positive state of mind through the release of chemical endorphins in the brain. Studies have shown that a happy workforce is more likely to be a productive workforce.

By under taking regular exercise employees can reduce the amount of lost production & construction days due to staff illness as their health will improve as a result of regular exercise.

Participating in sports & recreation activities gives people goals, aims and objectives and also bring about feelings of satisfaction and personal achievement.
